**Presidents Report for May 2009**

The Rambling A’s rain makers have been at it again!! Another tour and another day of rain in Mooresville, AL. We did a lot of tire kicking, eating and especially talking.

**Note: If you have not been on tour with us it will be worth it to watch George Womble get in and out of his car. Sometimes he turns the gas valve on...sometimes he does not!**

It was good to see some former members in Mooresville along with our regulars.

We are currently in the process of filing papers to incorporate the Alabama Rambling A’s. Harry Smith is working to get this accomplished. Thanks to Harry!

Great News: Also coming up in June our Chaplin Ken Sparks has announced his engagement and wedding plans on June 7<sup>th</sup>. This service is immediately after the morning service at the First Baptist Church in Albertville, AL which begins at 10:45 a.m. Ken would like for all of our club members to attend. More information available on our website under words from the “Chaplin’s Pulpit”.

We now have an official copy of our Region Charter from MARC. Thanks to George and Myra Womble. It will be framed and passed to each new president as they are elected.

More work is underway for parties and tours. Please check our website for up to date information about our club. Thanks to Larry Hardiman our Webmaster.

We may have a special tour for June. Plan now to join us.

See you on tour,

Cason Capps  
President Alabama Rambling A’s

**Alabama Rambling A’s 2009 Mooresville Tour**

For those of you who missed the Mooresville Tour you missed a really great time. Mooresville is the first town incorporated in the Alabama Territorial Legislature, on November 16, 1818. The entire town is on the National Register of Historic Places. It is not a “museum town”. It is a living thriving town that is much the same size as it was when it was incorporated in 1818 even while maintaining its historical integrity.

We won’t have the opportunity to experience this unique adventure again until 2011 but put it on your calendar for then. It is something that should be done over and over in order to understand just how average citizens live with, protect and cherish the historical aspects of this wonderful place. They are

able to maintain an often lost sense of a small town community as well as showcasing the buildings used by the early citizens of Alabama.

Yes, we did have rain the first part of the day but by noon the day began to open up her sky and show off the beautiful sunshine. Thanks to the group that put up with a little rain!
